

Position: Full-time general registrant year-long locum, with the possibility of extension and a permanent position.
Caseload: 30-40 BBC
Model: Shared-care, flexible schedule
Start date: May 2025 or sooner

Boreal Midwifery Practice (BMP) is located in Timmins, Ontario, a remote northern city serving a wide catchment area, including Cochrane, Iroquois Falls, Val Gagné, Matheson, Ramore, and Foleyet. Since 2007, our well-established practice has provided care to this diverse community, currently supported by three full-time midwives. We serve clients from a range of backgrounds, including Mennonite, Indigenous, and Francophone communities. Additionally, we accept referrals from low-risk clients traveling from remote northern regions to deliver in Timmins.

Our midwives hold privileges at Timmins and District Hospital, working within a full-scope model that includes managing oxytocin and epidurals. We proudly support choice of birthplace, with 20-30% of our births occurring outside the hospital—whether at home or in our clinic.

We are seeking a midwife who is passionate about improving healthcare accessibility in the North and committed to delivering high-quality, compassionate care. The ideal candidate will be comfortable working autonomously and collaboratively in a supportive, respectful environment. While fluency in French is not required, it would be an asset.

A caseload is available for the incoming midwife, and our team is committed to providing any support you may need as you transition into our practice. Please send your cover letter and CV to practice@borealmidwifery.ca. We appreciate all those who apply, however, only candidates selected for an interview will be contacted.

We look forward to hearing from you!
