

The Hamilton Midwives

www.hamiltonmidwives.ca

Offering 3 positions

2025-2026

The Hamilton Midwives is a busy teaching practice committed to helping new graduates launch their careers. We are a predominantly urban/ suburban practice with a diverse clientele and we hold hospital privileges at St Joseph's Healthcare Hamilton.

We will provide orientation, support, and guidance to help you lay a successful foundation. You will benefit from an income support program to bridge the gap before you start billing.

We are looking for midwives who are excited to consolidate their learning in a supportive environment where they can leverage their strengths while honing their skills in areas where they need improvement. Ideal candidates will have experience managing epidurals and oxytocin and will feel at ease with e-documentation. Arabic speaking is an asset.

We offer EDDs starting in the fall (winter starts can be negotiated), clinic to start in July. August is weekday, daytime call only. Three months of vacation is standard in our practice. We are leaders in sleep relief policy and sick time coverage as we take our commitment to supporting each other and providing a healthy work environment seriously.

We strive for a workforce that represents the community we serve so we encourage those from all walks of life to apply. We are committed to diversity, equity, inclusion and reconciliation with Indigenous people. We prioritize vulnerable and uninsured clients and ensure adequate interpretation for clients with language barriers.

If you would like to join our friendly team for this important first year, please direct your CV and cover letter to:
