*Live and Work the Rural Dream!*

## **Countryside Midwifery Services is Hiring for a General Registrant position**

We are looking for a General Registrant to work in a shared call model. The team would consist of 3 midwives with each midwife billing 32-34 BCC per year. This team allows for more off-call time, with every 3rd month completely off-call. The 2 midwives that remain on-call follow a shared call schedule with 5 days off every other weekend (ex. 2 on / 2 off / 5 on / 5 off). If preferred, a primary call model position is also available (30-40 BCC per year). There are many benefits to working at Countryside - we offer good support for weekends off call, and generous holiday time. We take pride in our orientation, support and guidance for New Registrants at our practice. The chosen candidate would start their first month doing clinic and orientation; starting on call coverage and EDD's the month following.

Countryside Midwives is a rural practice, surrounded by beautiful countryside with various urban settings close by. Lake Huron is also just a short drive away, perfect for all those off-call days! There are many organic farms that sell to the public, and many of our Amish and Mennonite clients sell produce right at the source.

This position is situated out of the Milverton clinic, with Stratford, Kitchener and Waterloo close by. We cover a large rural catchment area, and enjoy a high home-birth rate, and a low intervention rate. We work primarily out of Stratford and Listowel hospitals, and occasionally provide seconds in Fergus. We do manage epidurals at all 3 sites, and we transfer care for oxytocin inductions. We enjoy a low transfer rate overall, as many of our clients are highly motivated to have spontaneous and unmedicated births. We see many of our clients in their homes antenatally, and many of our booked clients are multiparous.

The ideal candidate should have an interest in rural midwifery, feel comfortable with homebirth, and either have experience with alternative remedies or wish to learn more! We are excited to receive your resume. Please forward cover letter and resume to Sarah Connors at:
