Live and Work the Rural Dream!

Countryside Midwifery Services is Hiring for a New Registrant Position

We are looking for a New Registrant to work in a shared call model. The team would consist of 3 midwives with each midwife billing 32-34 BCC per year. This team allows for more off-call time, with every 3rd month completely off-call. The 2 midwives that remain on-call follow a shared call schedule with 5 days off every other weekend (ex. 2 on / 2 off / 5 on / 5 off). If preferred, a primary call model position is also available. There are many benefits to working at Countryside - we offer good support for weekends off call, and generous holiday time. We take pride in our orientation, support and guidance for New Registrants at our practice. The chosen candidate would start their first month doing clinic and orientation; starting on call coverage and EDD's the month following.

Countryside Midwives is a rural practice, surrounded by beautiful countryside with various urban settings close by. Lake Huron is also just a short drive away, perfect for all those off-call days! There are many organic farms that sell to the public, and many of our Amish and Mennonite clients sell produce right at the source.

This position is situated out of the Milverton clinic, with Stratford, Kitchener and Waterloo a short drive away. We cover a large rural catchment area, and enjoy a high home-birth rate, and a low intervention rate. We work out of 3 hospitals, Stratford, Listowel and Fergus, with the majority of hospital births at the first two. We do manage epidurals at all 3 sites, and while we transfer care for oxytocin inductions, we do enjoy a low transfer rate overall, as many of our clients are highly motivated to have a spontaneous unmedicated birth. We see many of our clients in their homes antenatally, and many of our booked clients are multiparous.

Our practice is committed to providing a safe, healthy and considerate work environment. It is our goal to provide a diverse space for all midwives, employees and people we serve and we are in the process of learning how to accomplish this.

The ideal candidate should have an interest in rural midwifery, feel comfortable with homebirth, and either have experience with alternative remedies or wish to learn more! We are excited to receive your resume. Please forward cover letter and resume to Sarah Connors at: sconnors@countrysidemidwives.com

We thank all who apply, only those selected for an interview will be contacted.

We have confirmed funding to hire an NR for our practice!
