

THE COMMUNITY MIDWIVES OF KINGSTON

We are looking for a dynamic, fun, enthusiastic and outgoing General Registrant to join us.

WHY THE COMMUNITY MIDWIVES OF KINGSTON:

We are a growing urban practice with 17 midwives working different schedules and team models. We prioritize a work life balance attitude to maintain the personal lives of our midwives. Our clinic is based in the Downtown area of Kingston that is accessible to our midwives, staff and clients alike. Our practice is very organized and functions well with 4 admin staff to support the on call and clinic schedules using Accuro EMR. We are an effective team that promotes a positive and supportive environment for us all. We are a diverse mix of MEP and IMPP educated midwives and we value and welcome diversity to our group.

You will hold Privileges at Kingston Health Science Center, a level 3 teaching hospital with lots of opportunity for continuing education sessions. Our relationships at KHSC are excellent with the continuous integration of midwives in new roles. The Well Newborn Parent Clinic at KHSC is managed by Midwives from our practice and has proven to be successful, and advantageous to KHSC and dyads without access to Midwifery Care following birth. Our TPA are supportive and approved funding for this well used extended role of the midwife. At KHSC we manage epidurals, and a pilot project for oxytocin is well underway, where we manage oxytocin inductions when labour is established. On the unit we have access to two beautiful birth pools, they are well used for labor and water births should our clients choose it.

WHY KINGSTON :

Kingston is located on the eastern end of the beautiful Lake Ontario, St Lawrence River and the Cataraqui River. Kingston is located near Thousand Island and Prince Edward County. Some days we take the ferry to Howe Island, Amherst Island or Wolfe Island to see our clients for labor, births and postpartum visits. Kingston has a Military history, Heritage sites and is a popular tourist area. It is a vibrant, healthy, commercial, retail, residential and entertainment center of the region that offers downtown waterfront gathering places. Hiking, biking, kayaking, canoeing, paddle boarding, walking trails are just some of the things to do in our region.

The education facilities offered in Kingston bring students from all over the Globe due to its popularity and meet the needs of Newcomers to Kingston. Queen's University, St Lawrence College, Royal Military College
